Kružkov's Ideas and Stochastic Conservation Laws

Kenneth H. Karlsen

(University of Oslo)

Resumo:

Kružkov's ideas have over the years influenced many areas in nonlinear PDE. In this talk I will give an overview of well-posedness problems for stochastic conservation laws, with techniques taking some inspiration from Kružkov.

Data: 18/12 - 11:00 (GMT-3) - Via Zoom - Meeting ID: 941 4654 1647 - Passcode: 137222
