

IV BRAZILIAN CONFERENCE ON FUZZY SYSTEMS

2016

Campinas-SP, November 16-18

Horizons of fuzzy sets and systems: Theory and applications.

Call for Papers
www.ime.unicamp.br/~cbsf4

Aims and Scope

The IV BCFS aims at bringing together researchers, engineers, practitioners, and students to share the latest achievements and innovations, to discuss though-provoking developments, challenges, potential future directions, to foster national and international cooperation, and to address applications in science, medicine, economics and social sciences.

Topics

*Theory, Methodology and Algorithms
Optimization and Decision Analysis
Uncertain Information Processing
Engineering and Hybrid Systems*

*Biomathematics and Medicine
Fuzzy Dynamic Systems
Data Analysis and Fuzzy Statistics
Logic and Approximate Reasoning*

Organization

Marcos Valle
Estevão Esmi
Graçaliz Dimuro
Regivan Santiago

General Chair
General Co-Chair
Program Chair
Program Co-Chair

Important Dates

SHORT COURSES

01 April Short courses proposals 06 May Short courses acceptance notification 10 July Submission final short courses manuscripts

PAPERS

30 April Deadline paper submission 30 June Paper acceptance notification 05 August Submission final version of accepted papers
